

## Academic Departments and Programs of Study

KAU-AC has three academic departments:

- Department of Computer and Information Technology (CIT)
- Department of Business Information Technology (BIT)
- Department of Health Information Technology (HIT)

In addition to these departments, KAU-AC also has the supporting department of General Required Courses (GRC).

Each academic department offers at least one program of study at the present time. These programs were carefully selected according to the best scientific standards and after a series of consultative workshops with educationists and experts to meet the needs of the labor market. The first year at KAU-AC is a preparatory year for most of its students with 9 credit hours that focus on English, Computer Science and Mathematics. Students have to pass the subjects in this year to move on to the next year and specialize in one of the majors available. Students also study work ethics and communication skills during their 2<sup>nd</sup> and 3<sup>rd</sup> year in college.

The available major programs at KAU-AC are:

- Network Administration (67 credit hours)
- Computer Graphics Design (67 hours)
- Marketing (68 credit hours)
- Accounting (71 credit hours)
- Insurance (71 hours)
- Sales (38 hours)

## Programs and Courses

KAU-AC applies the credit hour system decided by the Council of the University. Each academic year is divided into two major semesters, each 16 weeks in length in addition to a separate 8-week summer term.
